

Philip Astley invented the circus in 1782, Astley created the Amphitehatre Anglais in Paris, the first purpose-built circus in France Philip was born in Newcastle 08.01.1742 He died in Paris on 27.01.1814.

The world's most famous Circuses

- Circus Vargas in USA
- Cirque du Soliel in Canada
- Cirque Medrano in Paris

I think animals should not be used in the circus . They are whipped repeatedly daily and are made to practice hours a day. They are kept in extremely small cages and they are kept chained to there cages or walls.

# Circus

The earliest of the true circus clowns was Joseph Grimaldi in 1805 his clown name was Joey.

World's Biggest cirus was the Ringling Bros & Barnum & Bailey. The circus closed in 2017 after running for 146 years.
