

Dragon story

By Henry

This is a story about dragons called Lightfury, Light-light and Rocket.

They are baby dragons who play a lot and have started to fly in the sky.

On the 2nd of May it was their birthday and they turned 1. They had a party and they had a nice game of hide and seek.

Then they were tired from playing so they went to bed for 3 minutes, but they have a lovely day with all their friends.
