## MY LIFE AS A PET

Hi my name is Hugo I am a pug. I was born up North and had 2 sisters and one brother. They were annoying because they always hit me and pinched all the food. But one morning an human walked in our house, I ran up to her, she looked very friendly! she chose me her name was Megan, we had a long car journey! I think I weed on her lap (oopsss) they took me to their house, when I came in I was overwhelmed with theses other humans, they were all so friendly, they let me explore the place but the best of all, the food that they drop on the floor.

They had a lovely garden, but I was not allowed out yet! I needed injections first. Megan's brother George always plays football in the garden, so I have to always avoid the footballs. although sometimes I do like to play with them too. They had a cat could Cola, she used to always run away from me. All I wanted to do was play with her! But she was moody and thought she ruled the house! Eventually we had to move out, Megan brought her own house because she had a baby boy called CJ with her boyfriend called Dale. I was a bit jealous to start off, as I thought I was her only baby but after all I am only a dog.

I was quite naughty when I lived at George's house! I ate their new sofa and chewed their carpet, I got into a lot of trouble! But I thought it was fun, it also helped with my new teeth! My jaws did ache a bit! However, Life in the new house is good, I'm allowed to even sleep in her bed! I wasn't at George's house, I was only allowed downstairs!

My boss Megan, is having another baby and it's going to be a Boy again but CJ's not that bad anyway, Dale is touching up the garden, i'm excited for when it's done because i'm not aloud to go on as many walks now because of this coronavirus. I cannot wait until we're out of this, all I seem to do at the moment is just sleep, eat and play! I do go in the garden and go on some walks now. Megan does go on facetime with her Mum a lot so i get to see Rob, Megan's step dad and George and Jamie. So right now I am writing this diary on my bed. I know your thinking dogs can't write but I can.i will share some photos
