

# My Pet Project

By Luisa Besien

## Blueberry

My rabbit is called Blueberry. She had a twin sister called Bramble but she died two years ago. Her breed is a miniature lop and her colour is “fawn butterfly”, her sister was a “chocolate butterfly”.

## A typical day in the life of my rabbit

I just woke up, what should I do? Oh yes, I want to go out! When will someone come to open my hutch? I will bang on my hutch door until they let me out. Bang bang bang. Yes I got their attention, someone is coming. I am free to go anywhere in the garden now!

Now let's eat all the grass, there's so much grass! All this eating is making me tired. I am going to find one of my nice spots in the garden to lie down. One of my best resting places is underneath this big bouncy thing called a trampoline. It's a bit of a mess with all these footballs around, but it feels secure.

Just woke up and I'm a bit hungry. I think I will wait under the tree until a small branch with some leaves comes floating to the ground. Ah, there is a branch with some juicy leaves on, lets feast! Oh no all leaves have gone. I guess I will just go and eat some more grass. I quite like eating from in between these paving stones.

I am getting tired. I am going to rest in another nice spot. My favourite places are by the shed, behind the greenhouse, behind the Hawthorn tree and on the veg plot. But, Luisa has put a fence around the veg plot so I can't get on anymore. I wonder why? I woke up by Luisa stroking me, she gave me some treats, that was nice. We played for a bit and then she went in. Time for a wash!

Later on she came back out again with her family. They played out for a while then they made me go back in. Sometimes I get to stay up really late in the garden and I see the hedgehogs. There were 5 hedgehogs one evening. They were very noisy. Yay my food bowl is full. Gobble gobble gobble. Oh no, my food is all gone.

## Pom Pom

Pom Pom is my Chinese hamster. She is very small and cute. She is also very funny and adventurous. She loves running in her wheel and digging. We have had her for nearly 5 months now.

### **A typical day in the life of my Hamster**

The suns coming up, got to go to sleep now. Sleep Sleep Sleep.

Just woke up and Luisa is cuddling me. I love going up her sleeve and popping out again.

She put me in the playpen, Luisa and her brother made this all for me. I sometimes go crazy in here.

It has a see-saw tunnel, a spinning wheel, cardboard tubes and some nibble treats.

At about 9.15pm she puts me back in my cage and then I go in the wheel. Run, run, run, drink, break. Run, run, run, food, break. I sometimes put some food in my wheel so it rattles around and wakes up Luisa, tee hee. The sun's coming up, got to go to bed now. Bye bye.
