

Career Assignment: Medical Scientists

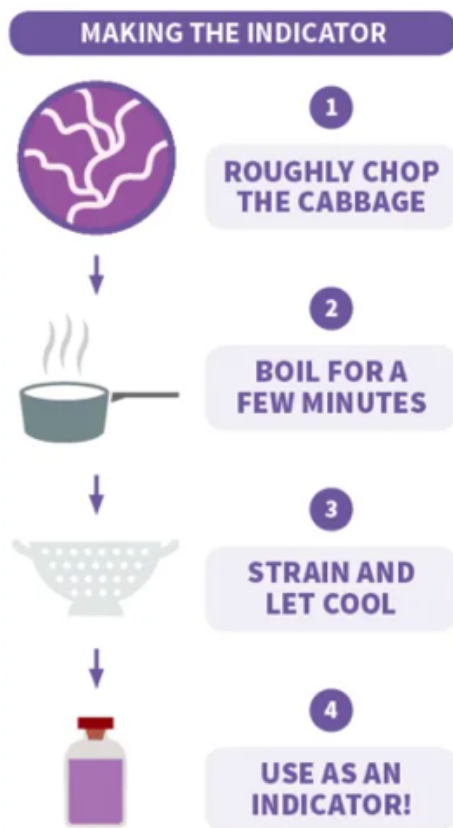

Task One: Pain Relief

Our first scientist works with pain management! Some people in the world can't **feel pain** at all.

What might happen if you can't feel pain?

Task Two: pH Levels

Task: Making pH indicator

The red cabbage extract can be used to test whether a substance is acidic or alkaline.

Test the pH of things in the kitchen:

i.e. White vinegar, lemon juice, Bicarbonate, water and salt water
