

# Houses Around the World

**House in a Maasai village in Kenya.**

- Made of cow manure and mud.
- Cow manure is waterproof.
- Branches to make it stable.
- The manure does not smell.

**House in Rio, Brazil.**

- People build their own houses because they do not have a lot of money.
- These houses are built out of brick and cement.
- They may make their first house out of corrugated iron or tin, they will slowly upgrade it.

**House on stilts in Bangladesh**

- Made out of bamboo.
- It is on stilts to keep the house away from flood water.
- Bangladesh floods a lot.

**Floating fishing village Ha Long Bay Vietnam.**

- Use barrels to float.
- Wood to build.

**House in Thailand**

- Made of bamboo and ground wood.
- Posts lifting them off the

**Honai home in Papua Indonesia**

- Built from wooden slats and thatched roofs.
- Traditional fires are built in the centre of the round houses.
